

REMARKS

Claims 1-21 were currently pending in the patent application. The Examiner had rejected Claims 1-5, 7, 9, and 11-18 under 35 USC 103(a) as unpatentable over Kim in view of Yoshida. The Examiner indicated that Claims 19-21 are allowed and that Claims 6, 8, and 10 would be allowable if rewritten in independent format. By this Amendment, Applicants have amended Claim 1 to include all of the limitations of Claims, 1, 3, 5 and 6. Applicants believe that the addition of the limitations to Claim 1 places it in condition for allowance, as independent Claim 1 now recites all of the limitations of allowable Claim 6. Applicants also have amended Claims 8 and 10 to depend from Claim 1. Duplicate claims have been canceled. By this amendment, Applicants believe that the remaining claims are all in condition for allowance. Based on the foregoing amendments and remarks, Applicants respectfully request entry of the amendments and allowance of the claims.

Respectfully submitted,
D. E. Staiger, et al
